Frequently Asked Questions

What if my loved one lives in another city?

While Care.com can't guarantee a network agency in all locations throughout the country, every effort is made to meet the needs of your adult dependents, wherever they live. Providing information on location and the type of care needed in advance will help ensure the right match.

When are caregivers available?

Adult care is available 24/7, in either your home or the home of the adult needing care. When making arrangements, calling in advance will help to maximize your care options. For new adult care requests, an in-home assessment is conducted before starting care.

How are caregivers screened?

Care.com's network of adult care agencies maintain a rigorous screening process for care providers they employ. Caregivers may be certified nurse's aides, home health aides, or experienced elder care companions, and will have:

- At least two professional references
- Criminal Background Check in accordance with state guidelines

How do I pay for Backup Care?

The credit card you have on file will be charged after care takes place. Please see your company's service overview for details, or contact your HR department.

Would I ever have to pay overtime?

The agencies we work with try to avoid instances of overtime. However, it can happen, for example, if you really like one caregiver and request them for multiple, typically longer, shifts. If a caregiver is expected to reach an overtime threshold (which may vary, depending on where you live), the agency or Care@Work will do its best to notify you in advance. Your co-pay for services may increase as a result of local overtime requirements.

What's the cancellation policy?

Your credit card will be charged \$30 if you cancel after your reservation. If your caregiver has already arrived or is on their way, you will be charged \$60.
